# About

This document was generated by [RepoDoc](#), a documentation tool for Sparx Systems Enterprise Architect. The document is based on the AsciiDoc template for RepoDoc and demonstrates the documentation of class diagrams in the EAExample.eap model that is part of the Enterprise Architect installation. Follow these [steps to generate an AsciiDoc and PDF document](#) using the AsciiDoc template or visit [www.archimetes.com](http://www.archimetes.com) to learn more about RepoDoc.

# Class Diagrams

This chapter contains all class diagrams with at least one diagram object contained under the package **Resource Allocation** from the EAExample.eap model.

## Resource Allocation

This class diagram has no description.

### ShoppingBasket

This class has no description.

*Table 1. Table of attributes*

Name	Description
shoppingBasketNumber	This attribute has no description.

*Table 2. Table of operations*

Name	Description
LineItem	This operation has no description.
addLineItem	This operation has no description.
createNewBasket	This operation has no description.
deleteItem	This operation has no description.
processOrder	This operation has no description.

### Order

This class has no description.

*Table 3. Table of attributes*

Name	Description
date	This attribute has no description.
deliveryInstructions	This attribute has no description.
orderNumber	This attribute has no description.

*Table 4. Table of operations*

Name	Description
status	This operation has no description.
LineItem	This operation has no description.

Name	Description
date	This operation has no description.
deliveryInstructions	This operation has no description.
orderNumber	This operation has no description.
checkForOutstandingOrders	This operation has no description.

## LineItem

This class has no description.

Table 5. Table of attributes

Name	Description
quantity	This attribute has no description.

Table 6. Table of operations

Name	Description
item	This operation has no description.
quantity	This operation has no description.

## Account

This class has no description.

Table 7. Table of attributes

Name	Description
billingAddress	This attribute has no description.
closed	This attribute has no description.
deliveryAddress	This attribute has no description.
emailAddress	This attribute has no description.
name	This attribute has no description.

Table 8. Table of operations

Name	Description
Order	This operation has no description.
basket	This operation has no description.
billingAddress	This operation has no description.
closed	This operation has no description.

Name	Description
deliveryAddress	This operation has no description.
emailAddress	This operation has no description.
name	This operation has no description.
createNewAccount	This operation has no description.
loadAccountDetails	This operation has no description.
markAccountClosed	This operation has no description.
retrieveAccountDetails	This operation has no description.
submitNewAccountDetails	This operation has no description.
validateUser	This operation has no description.
